EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Response to Arguments

1. In view of applicant's After Final Amendment filed 12 March 2004, the status of the application is as follows:

Claims Objections

The objections of claims 4-5, 26-28 & 33 are withdrawn in view of Applicant's amendment adding positive structural limitations to claims 4-5 and canceling claims 26-28 & 33.

35 U.S.C. §103(a) Rejections

The rejections of claims 24, 29-32 & 34 are withdrawn in view of Applicant's amendment incorporating claim 33 (indicated as containing allowable subject matter) into independent claim 24.

Allowable Subject Matter

2. Claims 1-16, 24, 29-32 & 34 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter:

The closest prior art of record, US 3,927,972 to Kawamura *et al.* & US 955,993 to Psarski, fails to teach each and every limitation of the instant invention.

Specifically, the closest prior art fails to teach the claimed washing machine having the claimed combination including a lid/cover with pushing projections protruding inward the heating tank for keeping textiles submerged in the tank, which is disclosed as an essential element of claimed invention, as described in claims 1 & 24. For at least the foregoing reasons, claims 1-16, 24, 29-32 & 34 (renumbered as claims 1-22) are believed to recite patentable subject matter.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
